

Technical Data Sheet - Crop Sulphur WSG 80
Water soluble sulphur fertilizer – microgranular
end product and raw material

Valid from: 01-10-2025
 Chemical name Sulphur
 Use of product Fertilizer use

Specifications

Typical properties

Dry matter content	%	>80
Sulphur concentration	% o.d.m.	96
pH-value	-	>7,0 – 9,0
Conductivity	µS/cm	2.000
Density	g/cm ³	1,6-1,7

Physical properties

Appearance	Solid
Color	yellowish to brown
Odor	Characteristic, slightly like rotten eggs
Solubility	Water soluble
Explosive properties	No explosive properties
Oxidizing properties	No oxidizing properties
Flash point	Not applicable

Storage information

Conditions	Store in the original packaging material and in the absence of rain or harsh environmental conditions; dry and well ventilated
Temperature	5 - 35°C
Packaging materials	Polypropylene

Transport information

HS code	25030090 Sulphur of all kinds
Proper shipping name	N/A
Transport hazard class(es)	N/A
Dangerous for the environment	N/A

Transport information

Packaging	25kg bags
Hazard statement	 Warning, may cause skin irritation
	H315, may cause skin irritation
